1359 I would remove & inspect the speedo cable to make darn
sure it isn't the cable. Also, if you've had the front wheel off
recently, I suppose something could be amiss with the speedo
drive.

Kawasaki spares for all models from 1970s to the present

I think the first gen gpz 550 was 81 and that launched the racer rep/dedicated sport bike thing. Very cool example here. Todd C January 12, 2017 11:14:41 pm First bike I ever bought, age 19, in 1983. \$2622 out the door. List was \$3199 I think.

I just picked up a 1985 GPZ 550 for practically nothing. It needs a carb cleaning and new battery to be running again. While I prefer the look of the 1981 GPZ, the 1985 model looks similar to the turbo GPZ 750 which was a cool machine too!

PITA to remove the carbs with the hard ones still on. Put the new ones in the air box, then install the carbs. Check the carb holders too.
