Today, we bring the advantages of leading-edge technology to thousands of publishers ranging from small businesses to industry giants throughout the world.

Autonomous Agents From Self Control

In approaching these issues, Mele develops a conception of an ideally self-controlled person, and argues that even such a person can fall short of personal autonomy. He then examines what needs to be added to such a person to yield an autonomous agent and develops two overlapping answers: one for compatibilist believers in human autonomy and one for incompatibilists.

Autonomous Agents: From Self-Control to Autonomy ...

In part 1 of his two-part Autonomous Agents, Mele attempts to capture autonomy by exploring the upper reaches of self-control, where self-control is understood as the opposite of akrasia, that is, weakness of will. It is Mele's contention that even an optimally self-controlled agent could fall short of autonomy.

Alfred R. Mele, Autonomous Agents: From Self-Control to ...

The root idea of autonomy, which comes from autos (self) and nomos (rule or law), is self-rule or self-government. Taking etymology seriously, my efforts to understand autonomous agency are efforts to understand the agency distinctive of self-ruled or self-governed individuals.

Autonomous Agents: From Self-Control to Autonomy by Alfred ...

Autonomous agents are software programs which respond to states and events in their environment independent from direct instruction by the user or owner of the agent, but acting on behalf and in the interest of the owner. The term agent is not defined precisely, and agent software can range from simple programs composed of a small number of rules to large and complex systems.

Autonomous Agent - an overview | ScienceDirect Topics

Autonomous Agents addresses the related topics of self-control and individual autonomy. "Self-control" is defined as the opposite of akrasia-weakness of will. The study of self-control seeks to understand the concept of its own terms, followed by an examination of its bearing on one's actions, beliefs, emotions, and personal values.
