The 737 Next Generation (NG) is the name given to the 737-600, 737-700/-700ER, 737-800, and 737-900/-900ER variants. By the early 1990s, it had become clear that the new Airbus A320 was a serious threat to Boeing's market share, as Airbus won previously loyal 737 customers such as Lufthansa and United Airlines.

Boeing 737 - Wikipedia

The Boeing 737 Next Generation, commonly abbreviated as 737NG, or 737 Next Gen is a narrow-body aircraft powered by two engines and produced by Boeing Commercial Airplanes. Launched in 1993 as the third generation derivative of the Boeing 737, it has been produced since 1997 and is an upgrade of the 737 Classic (-300/-400/-500) series.. It features a redesigned wing with a larger area, a ...
