This Acer palmatum Kuro hime Japanese maple is ideal for Bonsai since the grafting scars are minimal and very low. The Kuro hime is a great plant for bonsai because it has small leaves and is a dwarf maple. Leaves emerge with a tinge of red on the edges in spring with red petioles. Summertime foliage is pleasing green. Fall color oranges and reds.

### **Japanese Maples for Bonsai | Mendocino Maples Nursery**

In summer, a sunny to partially shaded outdoor space is suitable. Fine-leaved varieties should get no midday sun in midsummer (otherwise the Japanese maple bonsai gets brown leaf tips). Partial shade is well suited for Japanese maple bonsai. But the leaf coloration of many reddish varieties becomes a bit greener in the shade as the tree forms more chlorophyll here, which makes it greener.
