Puberty for boys usually starts between the ages of 10 and 17, and lasts for a few years. Everyone is different, though, and it doesn't matter when you start - your body will decide when the time is right. This booklet will tell you about all the changes to expect during puberty. It will also answer many of the questions you might want to ask.

### Always changing & growing up - FCPS

Puberty usually starts between ages 10 to 14 in boys, but it may start earlier or later. You may not go through puberty at the same time or in the same way as friends your age do. Puberty usually ends by about age 15 or 16 in boys. What will happen to my body during puberty? Hair growth is usually one of the first signs of puberty. Hair will grow in your pubic area (the area between your legs) and armpits.

### Growing Up God's Way for Boys: Chris Richards, Liz Jones ...

In boys, puberty usually starts around age 11. The testicles and skin around the testicles (scrotum) begin to get bigger. Also, early stages of pubic hair forms on the base of the penis. Tanner...

### Stages of Puberty: A Guide for Girls and Boys

What happens to boys? During puberty, boys start to make more androgens (reproductive hormones), especially testosterone, which causes a lot of the male puberty changes and makes the penis and testicles grow. As testosterone increases, boys begin having more erections, which is when the penis becomes stiff and sticks up as it fills with blood.

### Always Changing Growing Up - P&G School Programs

Puberty is a time when your body goes through many changes—you're growing both physically and emotionally from a child into a teenager and eventually into an adult. Although puberty doesn't happen at the same time for everyone, it usually starts between age 9 and 14 for boys. It also doesn't happen overnight.
