Guide for conducting risk assessments - NIST

Abstract. The purpose of Special Publication 800-30 is to provide guidance for conducting risk assessments of federal information systems and organizations, amplifying the guidance in Special Publication 800-39. Risk assessments, carried out at all three tiers in the risk management hierarchy, are part of an overall risk management process—providing senior leaders/executives with the information needed to determine appropriate courses of action in response to identified risks.

SP 800-30 Rev. 1, Guide for Conducting Risk Assessments | CSRC

Guide for Conducting Risk Assessments - an overview ...

Risk assessment should become an integral part of how you manage the organisation, its resources and its activities. It is now the Management Committee's responsibility to confirm that they are happy with this assessment of the risks faced by the organisation and are willing to accept the level of risk that remains.

Conducting a Risk Assessment | DIY Committee Guide

Conducting a Risk Assessment Feb 12, 2019 Once you have gathered the data and set the scope for a risk assessment project, the process moves on to conducting the risk assessment itself. Risk assessment serves many purposes for an organization, including reducing operational risks, improving safety performance and achieving objectives.

Conducting a Risk Assessment

To help you prioritize your risks, create a risk assessment chart. The risk assessment chart is based on the principle that a risk has two primary dimensions: probability and impact, each represented on one axis of the chart. You can use these two measures to plot risks on the chart, which allows you to determine priority and resource allocation.
