Consumption, Food and Taste - Alan Warde - Häftad ...

Like any luxury product, some foods denote a sense of class and distinction. According to French sociologist Pierre Bourdieu, the food consumed by the upper classes reflect "tastes of refinement", and its perceived value in society. Historically, these were highly exclusive food items, which were marked by high demand and low supply.

Social class differences in food consumption - Wikipedia

As a given food is increasingly consumed, the hedonic pleasantness of the food's taste, smell, appearance, and texture declines, an effect commonly referred to as sensory-specific satiety. Consequently, increasing the variety of foods available can increase overall food intake. This effect has been observed across both genders and across multiple age groups, although there is some evidence ...
