Creating the good life is not a dry exposition of Aristotelian ideas, its a very personal and relevent application of his ideas into the modern setting. The themes are revealed by James O'Toole explaining his own struggles and assumptions, how one moment he thinks he has 'got it' and the next he has to re-think, but each time moving forward exposing the fallacies of his previous views on life.

The third and final approach that can help universally define the good life is virtue ethics. Virtue ethics describe the character of a moral agent as a driving force for ethical behavior, rather than deontology, consequentialism, or pragmatic ethics. Aristotle created a virtues theory that consisted of acting upon morality and intellectuality.
