Dellorto Motorcycle Carburetor Tuning Guides

Dellorto Motorcycle Carburetor Tuning Guide. 3.4. Idle systems. At idle the Carburetor supplies only the mixture required to keep the engine running at very moderate rpm. The engine needs only a small amount of air when idling and the throttle slide should therefore be almost completely closed. Upstream of the slide there is only a weak vacuum, insufficient to cause the main circuit to deliver any fuel emulsion, while downstream of the slide there is a stronger vacuum which activates the ...
