Summary: "Buddhism originated in north India and spread to other parts of the subcontinent in the third century BCE. The Andhra region, located along the south-east coast of India, welcomed Buddhism and an important shrine was built at Amaravati, probably to house relics of the Buddha brought from the north.

Amaravati : the art of an early Buddhist monument in context

A collection of Schopen's key challenges to the ways in which literary material has dominated the study of early South Asian Buddhism. His work utilizes architectural and epigraphic materials to demonstrate the importance of what monks, nuns, and laypeople actually did and demonstrates the difference between early practice and precept.

Archaeology of Early Buddhism - Buddhism - Oxford ...

A stūpa (Sanskrit: स्तूप, "heap") is a mound-like or hemispherical structure containing relics (such as śarīra – typically the remains of Buddhist monks or nuns) that is used as a place of meditation. A related architectural term is a chaitya, which is a prayer hall or temple containing a stupa.

Stupa - Wikipedia

The concept is ancient and in early Sanskrit and Pali texts, it meant any arrangement of space or facilities for pleasure and entertainment. The term evolved into an architectural concept wherein it refers to living quarters for monks with an open shared space or courtyard, particularly in Buddhism.

Vihāra - Wikipedia

The decline of Buddhism in the Indian subcontinent refers to a gradual process of dwindling and replacement of Buddhism in India, which ended around the 12th century. According to Lars Fogelin, this was "not a singular event, with a singular cause; it was a centuries-long process.". The decline of Buddhism has been attributed to various factors, especially the regionalisation of India after ...
