Economics of Crime by Hellman and Alper is a very good title if you want to start studying the subject of the economic approach of crime. It is very comprehensive (it discusses several kinds of crimes, like theft, murder, prostitution, drugs, etc.), but it has its limitations, since it is made, in the words of the authors, for an "audience with limited background in economics".

Economics of Crime: Theory and Practice: Hellman, Daryl A ...

Monetarism began to deviate more from Keynesian economics however in the 70's and 80's, as active implementation and historical reflection began to generate more evidence for the monetarist view. In 1979 for example, Jimmy Carter appointed Paul Volcker as Chief of the Federal

Reserve, who in turn utilized the monetarist perspective to control inflation.

Major Theories in Macroeconomics | Boundless Economics

In clear, digestible prose that does not require readers to possess a background in microeconomics or mathematics, the authors introduce the theory and practice of environmental law and economics that have been so critical in the creation of robust environmental policy.
