Review: Endomondo Sports Tracker App - Singletracks ...

Endomondo for Windows phones no longer available. Firstly, we would like to thank all the Windows Phone users we've had over the years for supporting Endomondo as their main activity tracker. Unfortunately however, our app for Windows Phones has been out of development since late 2014 and therefore, after careful consideration, we have made the difficult decision of removing support for Windows devices and we have removed our app for download from the Windows Market Place.

Endomondo for Windows phones no longer available - Endomondo

Endomondo, at that time, had over 20 million users. Features. Endomondo can track numerous fitness attributes such as running routes, distance, duration, and calories. The software can help analyze performance and recommends improvements. There is a free and a paid version available of Endomondo. The free version has advertisements.
