750-766 Value-oriented stakeholder influence on infrastructure projects

Author links open overlay panel Lauri Vuorinen Miia Martinsuo

### **Value-oriented stakeholder influence on infrastructure ...**

Environmental impact assessment (EIA) has been promoted as an instrument for preventive environmental management in construction projects, but its performance in safeguarding the environment through influencing project decision-making is questioned. This paper probes the underlying reasons from a governance perspective as an important supplement to the regulatory and technical perspectives.
