Recently I did an ETOPS flight from KLAX to PHNL, great flight, only thing I had trouble with was some of the ETOPS planning. I used the PMDG 737-700 for the flight, did suffer some weight penalties but that is to be expected in a 737. My plane was configured for ETOPS 180, not sure if this is acceptable on a 737 but I did it anyway.

The Boeing 737 has been one of the most successful aircraft of all time. As of mid-2020, it remains the most delivered aircraft to date but has been overtaken by the Airbus A320 for orders. First

flying in 1967, it has been through several variants since then, each time improving and updating its offering.

### **The History Of The Boeing 737 » VCUAS**

The Boeing 727 is a narrow-body airliner produced by Boeing Commercial Airplanes. After the heavy 707 quad-jet was introduced in 1958, Boeing addressed the demand for shorter flight lengths from smaller airports. On December 5, 1960, the 727 was launched with 40 orders each from United Airlines and Eastern Air Lines. The first 727-100 rolled out November 27, 1962, first flew on February 9, 1963 ...
