Safety Goals and Measurements - Ohio BWC

A measurable goal would be no more than 4 soft tissue injuries this year. Keep trying. When goals are not met, go back and evaluate what went wrong. Involve key personnel and discuss what changes could be made to meet the goal in the future. If it becomes clear early in the year the goal is unattainable, adjust that goal for the year so there is still something to work towards. Start at the top. Management needs to know their participation in safety decisions is as important as setting the
