MPI/Maxx Products continue to make our lives easier with better ways to make sure we know the condition of our on-board battery packs (MX8260). This new system will monitor batteries from 3.5v to 10v and up to 8000 mAh. The onboard unit weighs in at 0.4oz. (11g) and uses a handheld unit that plugs into [...]

MPI announces new On-Board Watt Meter/Battery Monitor ...

I have been using 2 of these units for 6 months on my 1998 370 Sundancer communicating over bluetooth to 2 iphone 6S for dual display, or 1 phone and the ability to select which engine I wish to monitor. The units are mounted on the forward engine room bulkhead and I have reception at the helm and in the cabin with no issues.

New inexpensive product to display engine data on your ...

Multi-point injection (MPI) systems inject fuel at each cylinder, allowing much greater control over how much fuel the engine burns. In MPI systems, the injection generally takes place directly inside the cylinder's intake valve. Types of MPI Systems Depending on how the injection is handled, MPI systems fall into several types.

The Engine Guardian System monitors the critical sensors on the engine for any early indications of problems. The system will respond to a problem by emitting a continuous beep and/or reducing engine power in order to provide engine protection. If Guardian System has been activated, reduce throttle speed.

MERCURISER HORN WARNING SYSTEMS

I've recently installed a new Mercmonitor onboard to provide engine monitoring data. First thing I've noticed after the installation, is that the unit is reporting a "check engine" alarm. Because the engine is the older generation, the Mercmonitor does not provide the detailed text description of the engine fault.
