### Photography Cinema Memory The Crystal

In Photography, Cinema, Memory, Damian Peter Sutton explores time in both media to present a radical new understanding of the photographic image as always coming into being. Drawing on Gilles Deleuze's concept of the crystal image to move beyond the tropes of immobility, stasis, and death, Sutton's analysis reveals the open-endedness of time expressed in the photograph, either as a potential for an abundant future or as a depth of meandering remembrance.

In Photography, Cinema, Memory: the Crystal Image of Time, Damian Sutton synthesizes and reinvigorates these existing paradigms by catalyzing a new and exciting encounter with the radical philosophical theories of Gilles Deleuze (and Félix Guattari). In the abstract machine of visual culture that surrounds us, he argues, photography remains ...
