Rethinking Us Security National Security

Much of the United States' focus on national security involves dealing with great powers, especially China and Russia, and terrorist groups, such as the Islamic State, or ISIS. But there is a growing consensus among foreign-policy makers that instability in the developing world complicates these challenges, and produces others, too. The refugee crisis, fed by instability in the Middle East and North Africa, is one example: it has driven apart European nations even as they must work together ...

Rethinking U.S. National Security | Foreign Affairs

The challenge, she said, is how to rethink U.S. national security and defense in a way that reflects long-cherished American principles of openness, freedom and democracy. The current administration's strategy emphasizes interstate competition or great-power rivalries over terrorism and such other issues as nuclear nonproliferation, she said.
