### Aug. Schatz & Sohne 53 Germany Miniature Coach 400 Day Anniversary Clock

I have a Schatz 400 day anniversary clock (#53). I replaced a broken spring and put it back together. The pendulum swings, the fork is engaged with the verge, but the fork is not moving the verge. Too much tension on the verge? It easily moves if I push it, but I don't know how much tension there should be for regular drive motion.

### I have a Schatz 400 day anniversary clock (#53). I ...

SUSPENSION SPRING REPLACEMENT . In the event of breakage of the delicate suspension wire, which holds the pendulum, a spare has been included for your clockmaker to use if it should be necessary to replace the suspension wire. This is replaced in the following manner: 13) Take the pendulum off the suspension plate (C).

### Horolovar Home Page

Schatz (Aug. Schatz & Sohne) made this 1000 day clock in November 1954 (it has date code 11 54 on the rear of the movement). This is the earlier movement style with straight legs. Around mid-1955, Schatz changed the plate design to have curved legs ( see this article for a view of the curved leg design).
