courses. However, with this book, the student avoids paying tuition, learns at times of his own convenience, and can compare the different programs. In this book, load flow (power-flow) and short-circuit analyses are done on a small steady-state three-phase power system with manual methods. Then, each program is used to carry out the same analyses.

A former stray dog who was returned to the shelter twice is the newest member of the Owego Police Department in New York. K9 Officer Maggie, a four-year-old pit bull/Belgian Malinois mix, arrived at Town of Hempstead Animal Shelter as a stray. Sadly, her journey to find a perfect home was filled with rejection.
