No long, boring theory but practical advice, lots of examples, and clear rules.

## **Technical Documentation Best Practices**

As a technical writer or technical writing manager, creating a documentation plan is essential to the success of your next project. A documentation plan is an overview of the entire project from the perspective of a technical writer. This plan is drafted in the early stages of the project and is incorporated into the overall project plan to ensure that everyone involved is on the same page.

## **Planning a Technical Writing Project | ProEdit**

When, why, and how to properly use technical documentation. How to plan, write, and deliver technical documentation that works. Step 1: Do research and create a "Documentation Plan". Step 2: Structure and design. Use templates or "schemas" for consistent on-page design. Create a simple, logical navigation structure.
