Television Operations Handbook: Oringel, Robert ...

ALEXANDRIA, VA.—“Television Operations: A Handbook of Technical Operations for TV Broadcast, On Air, Mobile and Internet” is another in the growing list of specialty publications produced under the auspices of the Society of Broadcast Engineers. Its authors, Frederick M. Baumgartner and Nicholas A. Grbac, are no strangers to broadcasting and life in television master control rooms (I counted more than a dozen sets of station call signs in their combined bios).

Station Handbook & On-Air Training Manual

This handbook assumes a basic familiarity with television station equipment and operations and provides most of the general information necessary for television operators. Readers may be working operators wishing to certify their skills and knowledge. Others may wish to become a television operator as their entry into the world of broadcasting.

Society of Broadcast Engineers

However, the typical television station will contain the following seven operations: general administration, sales, programming, production, news, advertising, and engineering.
