The Architecture Of Happiness Alain

The Achitecture of Happiness is a dazzling and generously illustrated journey through the philosophy and psychology of architecture and the indelible connection between our identities and our locations. One of the great but often unmentioned causes of both happiness and misery is the quality of our environment: the kinds of walls, chairs, buildings, and streets that surround us. And yet a concern for architecture is too often described as frivolous, even self-indulgent.

The Architecture of Happiness: De Botton, Alain ...

The Architecture of Happiness. One of the great, but often unmentioned, causes of both happiness and misery is the quality of our environment: the kind of walls, chairs, buildings and streets we're surrounded by. And yet a concern for architecture and design is too often described as frivolous, even self-indulgent. The Architecture of Happiness starts from the idea that where we are heavily influences who we can be – and argues that it is architecture's task to stand as an eloquent ...

The Architecture of Happiness - Alain de Botton

Alain de Botton's Architecture of Happiness is a humanist's guide to understanding built environments. Finding room to appreciate both classical and contemporary architecture, de Botton resolves the quarrel between the ancients and the moderns by suggesting that every architecture strives to provide the conditions for happiness.

The Architecture of Happiness by Alain de Botton ...

The Architecture of Happiness is a book by Alain de Botton (ISBN 978-0241142486) which discusses the importance of beauty, published by Pantheon Books in 2006. De Botton, inspired by Stendhal's motto "beauty is the promise of happiness," analyzes human surroundings and how human needs and desires manifest their ideals in architecture. Reception

The Architecture of Happiness - Wikipedia

The Architecture of Happiness. Extract. A concern for architecture has never been free from a degree of suspicion. Doubts have been raised about the subject's seriousness, its moral worth and its cost. A thought-provoking number of the world's most intelligent people have disdained any interest in decoration and design, equating contentment with discarnate and invisible matters instead.
