Language is one of the most powerful means through which sexism and gender discrimination are perpetrated and reproduced. The content of gender stereotypes, according to which women should display communal/warmth traits and men should display agentic/competence traits, is reflected in the lexical choices of everyday communication. As a consequence, language subtly reproduces the societal ...

Mass media refers to a diverse array of media technologies that reach a large audience via mass communication. The technologies through which this communication takes place include a variety of outlets. Broadcast media transmit information electronically via media such as films, radio, recorded music, or television. Digital media comprises both Internet and mobile mass communication.

### **Mass media - Wikipedia**

A stereotype is a held belief about a group of people that has no scientific basis but that affects how a person perceives and analyses communication. Stereotyping leads to bias and a lack of empathy when communicating with other people. One of the ways stereotyping has an effect on the way people communicate is through stereotype threat.

### **How Do Stereotypes Affect Communication?**

explicit response options. Then we discuss social desirability response bias (a form of motivated misreporting) and recall bias (a form of unmotivated misreporting), and recommend ways to minimize each. Finally, we consider the ordering of questions and conclude with a discussion of how to test and evaluate questions via pretesting.
