The Effect Of Delay And

Delay is an audio signal processing technique and an

was created and subjected to the evaluation. The ranking of the effects based on overall results, were: 1) Cost overrun, 2) Time overruns, 3) Arbitration, 4) Disputes, 5) Litigation and 6) Total abandonment. All the parties agreed that both the cost overrun and time overrun are the most serious effects of delay.

A developmental delay is more than just being “slower to develop” or “a little behind.” It means a child is continually behind in gaining the skills expected by a certain age. A developmental delay can happen in just one area or in a few. A global developmental delay is when kids have delays in at least two areas.
