animal. Features plastic animal noses and hard cards on which to put the noses.

Who Knows Whose Nose? | Board Game | BoardGameGeek

Every animal's nose helps it live. Noses help both people and animals breathe. Some animals use their noses for other tasks as well. An elephant uses its nose to pick up things. An alligator can stick its nose out of the water so it can breathe when it's swimming. An anteater uses its nose to pick ants out of an anthill and eat them.

Do You Know This Nose? | Reading A-Z

The Pinocchio paradox arises when Pinocchio says "My nose grows now" and is a version of the liar paradox. The liar paradox is defined in philosophy and logic as the statement "This sentence is false." Any attempts to assign a classical binary truth value to this statement lead to a contradiction, or paradox. This occurs because if the statement "This sentence is false" is true, then it is ...

Pinocchio paradox - Wikipedia

Two gray, furry legs with long, dark claws reach into a stretch of stark white space on the first verso. On the recto is an enormous, realistically portrayed black nose protruding from a white, whiskered, foreshortened snout. A pink tongue and the bottoms of dark eyes are also visible.
